CV-SALTS meetings are held in compliance with the Bagley-Keene Open Meeting Act set forth in Government Code sections 11120-11132 (§ 11121(d)). The public is entitled to have access to the records of the body which are posted at <http://www.cvsalinity.org>. On March 4, 2020, Governor Newsom declared a State of Emergency resulting from the threat of COVID-19. Governor Newsom issued Executive Order N-25-20 (3-12-20) and Executive Order N-29-20 (3-17-20) which temporarily suspends portions of the Brown and Bagley Keen Acts relative to conducting public meetings. Subsequent thereto, Governor Newsom issued Executive Order N-33-20 (3-19-20) ordering all individuals to stay at home or at their place of residence. Accordingly, it has been determined that all CV-SALTS meetings will be held pursuant to the Brown Act and will be conducted via teleconference. There will be no public access to an on-site meeting venue.

One or more Central Valley Regional Water Quality Control Board members may attend.

Central Valley Regional Water Quality Control Board

NOTICE OF VIRTUAL PUBLIC WORKSHOP PRELIMINARY MANAGEMENT ZONE PROPOSALS AND DRINKING WATER EARLY ACTION PLANS

In May 2018, the Central Valley Water Board adopted new regulations called the “Nitrate Control Program.” The Nitrate Control Program requires permit holders in the Central Valley to develop plans to both reduce nitrates in their wastewater and to provide interim drinking water to affected communities. On **April 27, from 1 to 4 pm**, Board staff will hold a virtual public workshop to discuss these plans, which were submitted to the Board on 8 March 2021.

Background: Nitrate is dangerous to pregnant women and infants when concentrations in drinking water are above 10 parts per million. Nitrate is present in agricultural fertilizers, dairy manure, industrial wastewater, septic systems, and in treated sewage. All these sources have contributed to groundwater pollution in the Central Valley. Under the Nitrate Control Program, the Board identified areas (Priority 1 and Priority 2 basins), where nitrates are prevalent in groundwater. Priority 1 basins include the Chowchilla, Kaweah, Kings, Modesto, Tule, and Turlock subbasins. In Priority 1 basins, Management Zones formed to meet the requirements of the new Nitrate Control Program. On 8 March 2021, these Management Zones submitted *Preliminary Management Zone Proposals* and *Early Action Plans*. *Preliminary Management Zone Proposals* contain the permit holders’ roadmap for reducing nitrates in their discharges. *Early Action Plans* contain proposals for providing interim replacement drinking water to people whose wells have been polluted by nitrates. Implementation of the *Early Action Plans* are scheduled to begin on 7 May 2021.

[Preliminary Management Zone Proposals and Early Action Plans](#) are available for review here:

(https://www.waterboards.ca.gov/centralvalley/water_issues/salinity/nitrate_mz/)

The Central Valley Water Board has been accepting written comments on these plans through **14 April 2021**. Comments should be emailed to cvsalts@waterboards.ca.gov or mailed to 11020 Sun Center Drive #200, Rancho Cordova, CA 95670
