The Section Chief must make a determination on the problem within ten (10) working days after receipt of the written communication from San Joaquin Valley Drainage Authority. The Section Chief shall respond in writing to San Joaquin Valley Drainage Authority indicating the decision and reasons therefore. 1) If this agreement is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of three years from the date of any resulting final settlement.
2) If any litigation, claim, negotiation, audit, or other action involving the
records has been started before the expiration of the three-year period, the
records shall be retained until completion of the action and resolution of all
issues which arise from it, or until the end of the regular three-year period,
whichever is later.

E. The Contractor and/or Subcontractor shall comply with the above requirements
and be aware of the penalties for violations of fraud and for obstruction of
investigation as set forth in Public Contract Code § 10115.10, if applicable.

A. Contractor shall submit progress reports or attend meetings with state personnel at
intervals determined by SWRCB to determine if the Contractor is on the right
track, whether the project is on schedule, provide communication of interim

D. Contractor agrees that any purchasing freeze or purchase limitation policy adopted during the term of this contract shall not restrict or limit purchases funded, in whole or part, by this contract.

8. **Avoidance of Conflicts of Interest by Contractor**

A. SWRCB intends to avoid any real or apparent conflict of interest on the part of the Contractor, subcontractors, or employees, officers and directors of the Contractor or subcontractors. Thus, SWRCB reserves the right to determine, at its sole discretion, whether any information, assertion or claim received from any source indicates the existence of a real or apparent conflict of interest; and, if a conflict is found to exist, to require the Contractor to submit additional information or a plan for resolving the conflict, subject to SWRCB review and prior approval.

B. Conflicts of interest include, but are not limited to:

1) An instance where the Contractor or any of its subcontractors, or any employee, officer, or director of the Contractor or any subcontractor has an interest, financial or otherwise, whereby the use or disclosure of information obtained while performing services under the contract would allow for private or personal benefit or for any purpose that is contrary to the goals and objectives of the contract.

2) An instance where the Contractor’s or any subcontractor’s employees, officers, or directors use their positions for purposes that are, or give the appearance of being, motivated by a desire for private gain for themselves or others, such as those with whom they have family, business or other ties.
C. If SWRCB is or becomes aware of a known or suspected conflict of interest, the Contractor will be given an opportunity to submit additional information or to resolve the conflict. A Contractor with a suspected conflict of interest will have five (5) working days from the date of notification of the conflict by SWRCB to provide complete information regarding the suspected conflict. If a conflict of interest is determined to exist by SWRCB and cannot be resolved to the satisfaction of SWRCB, the conflict will be grounds for terminating the contract. SWRCB may, at its discretion upon receipt of a written request from the Contractor, authorize an extension of the timeline indicated herein.

C. Either party may make changes to the information above by giving written notice to the other party. Said changes shall not require an amendment to this agreement.
3. Background

A. The State Water Board and the Regional Board have identified salinity as a major, widespread growing threat to maintaining the beneficial uses of surface water and groundwater in the Central Valley. Salinity and nitrate from past and current sources impair beneficial uses of waters throughout the basin and result in pollution of drinking water sources for some communities in the Central Valley. While there are salinity regulatory controls in place, a much more comprehensive approach is needed to effect regional change, including the development of Basin Plan amendments and involvement of the many stakeholders that use Central Valley waters.

B. The Regional Board and the State Water Board have concluded that as the surface water and groundwater supplies of the Central Valley become intensely used and as wastewater streams become more concentrated, salinity and nitrate impairments are being discovered with greater frequency. The Regional Board and the State Water Board have initiated a comprehensive effort to address salinity problems in California's Central Valley and adopt long-term solutions that will lead to enhanced water quality and economic sustainability. Central Valley Salinity Alternatives for Long-Term Sustainability (CV-SALTS) is an effort to develop and implement a comprehensive salinity/nutrient management program. The goal of CV-SALTS is to maintain a healthy environment and a good quality of life for all Californians by protecting our most essential and vulnerable resource, water.

C. The State Water Board and the Regional Board established a Central Valley Salinity Advisory Group (known today as the Central Valley Salinity Leadership Group) in 2006 to take the lead in the CV-SALTS effort, and committees (CV-SALTS Committees) of this group have been meeting ever since.

D. The Central Valley Salinity Coalition (Coalition) is an organization formed under Internal Revenue Code Section 501(c)(6) for purposes of seeking supplemental funding from non-State parties for the Study and for assisting in the administration of CV-SALTS efforts. The Coalition has entered into a Memorandum of Agreement with the Regional Board and the State Water Board for CV-SALTS. Standing Rules have been approved to document the roles of the State Water Board, Regional Board, CV-SALTS Committees and Coalition.
E. The San Joaquin Valley Drainage Authority (SJVDA) is a joint powers agency organized pursuant to the California Government Code Section 6500 et seq., comprised of 12 member local agencies for the purpose, among others, to identify and implement feasible regional long-term solutions to drainage issues affecting irrigated agricultural lands in the San Joaquin Valley, either along or together with the State of California and/or the United States. The SJVDA is a member of the Coalition and an active participant in the CV-SALTS initiative.

F. On March 17, 2009 the State Water Board adopted Resolution No. 2009-0023, which approves the use of $1.2 million in Cleanup and Abatement Account funding for the development of a salinity and nitrate management plan for the Central Valley (the State Board CV-SALTS Fund). Specifically, the funding was allocated for a Salinity and Nitrate Objective and Beneficial Use Study (Study), which will establish a model using existing, reliable, and usable data from areas and water bodies within the Central Valley. The expectation is that this model can then be used to establish beneficial uses and objectives for areas where little or no data exist. The Study will be implemented through multiple projects. Match funding for proposed projects is expected to be developed through the Coalition to augment the State Board CV-SALTS Fund for the Study.

4. Services to be Performed

A. Project Selection

1) With input from CV-SALTS Committees, the State Water Board/Regional Board Contract Manager will identify and prioritize specific projects that will be conducted to complete the Study and will prepare a detailed scope of work, including a description of the expected tasks for such project, budgets, schedule, and deliverables, such as report requirements (the Scope of Work) for each project proposed for funding.

2) The State Water Board/Regional Board Contract Manager will also ask the CV-SALTS Executive Committee to: i) review and comment on the Scope of Work for each proposed project; ii) advise as to whether the Scope of Work is final; iii) recommend projects for funding from the State Board C-V SALTS Fund; iv) designate the CV-SALTS Committee with primary review responsibility; and v) advise as to whether or not matching funds are available for the project. Information provided by
the CV-SALTS Executive Committee will be compiled by the State Water Board/Regional Board Contract Manager and provided to the SJVDA with the notice to proceed.

4) The State Water Board/Regional Board Contract Manager shall provide the SJVDA with a notice to proceed together with the Scope of Work and any appropriate supporting documents for each approved project.

B. Matching Funds

One goal of the CV-SALTS effort is to raise funds and conduct projects that support the development of a Salinity and Nitrate Management Plan for the Central Valley. The SJVDA may use State Board CV-SALT funds and funding from other sources to subcontract work related to the Study. When this occurs, the subcontract will clearly state which work products are paid for by State Board CV-SALT funds.

C. Contracts and Administration

1) Promptly upon receipt of the notice to proceed from the State Water Board/Regional Board Contract Manager, the SJVDA will implement a process to solicit services to implement the approved project.

   a) Because the work for the Study will consist primarily of scientific investigations, data collection and modeling and will not include public works construction, the SJVDA will develop appropriate packages and request proposals in accordance with the requirements of Section 3.06 of the State Contracting Manual.

   b) Prior to the award of a subcontract for any approved project, the SJVDA shall submit the proposed subcontract for approval by the State Water Board/Regional Board Contract Manager.

2) The SJVDA shall provide oversight and management of the projects, including, but not limited to the following:

   a) All projects must include a process for providing progress reports and draft reports to the State Water Board/Regional Board Contract Manager and appropriate CV-SALTS committees, allowing time for development of comments by these parties, and for responding to the comments received.
b) For projects with match funding, SJVDA shall ensure that projects include measures to verify i) that information included in the proposals describes the tasks to be funded with State Board CV-SALTS Funds and separately describes the additional or augmented tasks to be accomplished with match funds; and ii) that match funding is available in the amount described in the approved project prior to the start of work performed under the subcontract.

c) The SJVDA will prepare and submit quarterly reports describing work completed during the quarter and invoices as described in Exhibit B of this contract; no work performed prior to the approval of State Board Resolution 2009-023 is eligible for reimbursement and funds expended prior to that date shall be considered match funds of any project approved prior to that date.

d) Five hard copies and one electronic copy of each of the final project reports prepared under this contract will be submitted to the State Water Board/Regional Board Contract Manager. Final payment will not be made until the reports are received and accepted by the State Water Board/Regional Board Contract Manager.

e) The SJVDA will prepare and submit a final report summarizing all work completed under this contract.

Gasoline and routine automobile repair expenses are not reimbursable.

5. The contractor is required to furnish details surrounding each period of travel. Travel expense reimbursement detail may include, but not be limited to: purpose of travel, departure and return times, destination points, miles driven, mode of transportation, etc. **Reimbursement for travel expenses may be withheld pending receipt of adequate travel documentation.**
