**Item 4: Discuss material/product needed.**  
- The committee discussed the drafts of the industry inserts for ILRP, and Dairy.  
  - Charles stressed that it was important for everyone to review the inserts from all areas, so that the format and content could be as aligned as possible across the industries/communities.  
  - Committee members should mark up the drafts with suggested edits and forward to Charles and Mary.  
    - Glenn Meeks requested that the phrase “while supplying safe drinking water to affected communities” be brought into the ILRP draft earlier, since it is the number one goal.  
    - J.P. indicated the Dairy draft was still undergoing internal revision and members should wait to comment until the next version was available.  
    - The committee agreed that once all the inserts were complete the committee would review the industries/areas covered and draft an insert to address those not covered. Karl Longley specifically mentioned the bovine, poultry and cannabis orders.  
    - Mary will work on a masthead for the inserts that is similar in design to the CV-SALTS logo on the 11 X 17 brochure.

- The printing needs for the 11X17 brochure were discussed. Daniel will have 15,000 brochures printed.
