Bold Type:

Beneficial uses in bold type are those for which a potential range of objectives needs to be identified under Task 3a of the Workplan.

Symbols:

* = Used to denote that salinity criteria for protection of the WARM beneficial use would also be protective of the MIGR WARM and SPWN WARM beneficial uses.

** = Used to denote that a salinity criteria for protection of the COLD beneficial use would also be protective of the MIGR COLD and SPWN COLD beneficial uses.
